## **Letter from the Director**

Nutribyte launched in 2014 as a small family business with the sole purpose of manufacturing premium grade diets at a very affordable price. After months of research, we consulted with a leading animal nutritionist and a leading Veterinarian, where after the first diet was formulated as a standard Maintenance diet for Adult dogs. In 2015 we realized that we needed to improve on the already successful Adult Maintenance diet, by adding to it, specialized petfood additives like Glucosamine, MOS (Mannan-Oligosaccharide) and Beta Glucan.

Ultimately the addition of these additives would separate Nutribyte from most retail brands that only uses a basic formula. Further research showed that a lot of South African and even other African dogs suffered from inflamed skin reactions and scratching due to imbalanced levels of Omega 3 & 6, along with insufficient levels of essential fatty acids like DHA & EPA.

For this reason we formulated a specialised blend of chicken fat and some vegetable fats, that will ultimately give lower FFA levels and higher DHA & EPA levels. This unique oil and fat coating would give the Nutribyte Premium range a Suitable for Sensitive Skin status as per Act 36 of 1947.

In 2016 we registered the Nutribyte Small to Medium Puppy and Nutribyte Large to Giant Puppy diets, along with the Nutribyte Senior diet to once again offer more clients and their beloved friends the best possible nutrition at the most affordable price! In 2017 we added the Nutribyte Adult Cat diet and thus had a full range to offer for our four-legged friend's needs.

2018 gave birth to the Nutribyte Specific range and Nutribyte Endurance and Nutribyte Mother Miracle was born. This would be the first in our Super Premium range, also offering a Maize and Wheat free option for sensitive digestion, sensitive skin, working dogs and lactating mommies.

By 2020 we are ready to offer you a complete Premium Petfood range, a complete SnackBytes biscuit range and a very effective MaxiWorm K9 dewormer! More great products are yet to come, and we want to thank every single person and 4-legged friend that supported Nutribyte the past 5 years to make this all happen. Without your trust, input and support, we would not be able to supply the South African and Global market with this variety of products. Be sure to monitor our website and Facebook page for any new developments. We trust that you will find the Nutribyte range extremely beneficial to the health of your dogs, no matter what their age, size or breed and will exceed all expectations.

Saving money is simply a bonus, as quality pet food, snacks and medicines does not have to cost you a fortune! Feel free to contact me directly for any questions or queries you may have!

# Manufacturing & Quality Control

## Pre Production

Nutribyte uses a renowned factory, fully approved by Act 36 of 1947, to manufacture the Nutribyte range. We are proud to say that we use a fixed formula on all diets, meaning that every batch of Nutribyte made is exactly the same as the last. This allows for a healthier lifestyle and avoids nutritional imbalances. All ingredients are tested pre-production to ensure that they conform to the necessary specifications. Ingredients are also tested for mycotoxins and other impurities.

## Production

Once all ingredients have been tested, they are milled individually and then mixed together to create the unique formula. All ingredients are milled at 0.8mm size, to optimize digestion and to ensure that the extrusion process runs smoothly. The vitamin & mineral premix, along with the other additional additives like Glucosamine, MOS & FOS, Beta Glucan, etc. are added and mixed thoroughly into the batch.

Nutribyte uses an independent quality controller to ensure the correct procedures are followed at all times throughout the entire run. He monitors:

- Kibble sizing
- Moisture and water activity
- Universal coating
- Sufficient drying
- NIR lab testing
- Final inspection before bagging

Should the batch not conform to any one of these standards, the entire batch is rejected and the process starts over. We do not allow any deviations or shortcuts.

## Post Production

After manufacturing, samples are sent to an independent laboratory to run a wetchem analysis, (which is far more accurate than a standard NIR), to analyze the final product. The wetchem analysis will immediately and accurately confirm, if the feed is according to specifications. If the product does not test as it is registered according to Act 36/1947, the batch is rejected as by law.

# Unique to all Nutribyte diets

Nutribyte offers six premium diets including cat food, making Nutribyte a premium pet food company. Each diet is formulated uniquely for a certain life stage, breed or size of your pet. Nutribyte plans to release a specialised range called "Nutribyte Specific", which will be formulated for specific conditions or needs, like Active Dog, Recovery etc. Although diets may differ in the way they are formulated, all Nutribyte diets are made using the following ingredients:

### High quality proteins

Proteins and amino acids are the building blocks for a healthy body. Proteins build and repair muscle tissue and hair.

### High quality Fats and Oils

Source of energy including Omega 6 & 3 fatty acids for a healthy skin and coat.

### High Quality carbohydrate sources

Energy is fuel which enables the body to function. Needed for growth, reproduction, lactation and other bodily functions.

### High quality Vitamins and Minerals

Needed for key metabolic functions, enzymes, optimal nerve function and electrolytic balance.

Bovine proteins are hugely associated with skin allergies. Only Poultry and Porcine protein meals are used. The unique fat and oil blend is higher in Omega 3 & 6, assisting a sensitive skin.

Meat-based proteins, highly digestible carbohydrates like rice and animal-based fats & oils allow for optimal nutritional absorption.

# SNACKBYTES™ DOG BISCUITS RANGE

# SNACKBYTES™ DOG BISCUITS

Formulated to satisfy and compliment your adult dog's appetite in between meals.  
Real peanut butter and chicken add extra taste for the ultimate training-treat reward.

*Feed from 1 year onwards*

## Advantages

### SUITABLE FOR ALL BREEDS

SnackByte biscuits are shaped so that it is suitable for most medium to large breeds. The easily breakable biscuit makes it easy to give to smaller dogs or giving more than one biscuit for larger or giant breeds.

### MADE WITH BROWN RICE.

Brown rice is rich in natural fibre to aid in better digestion compared to other mainstream grains. Brown rice also offers high levels of Vitamin B & D which promotes better heart health.

### RICH IN VITAMINS & MINERALS.

Pyrophosphates helps control tartar build up and may dissolve excess tartar which aids in better dental health. Good dental health may also help control bad breath.

### ADDED PYROPHOSPHATES FOR ORAL CARE.

Added Pyrophosphates for oral care

# OUR Premium RANGE

# ADULT MAINTENANCE

*Small bite*

Formulated to meet and exceed the requirements of all adult dogs with a general lifestyle. Smaller kibbles for smaller breeds

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

**Feed from 1 year until 10 years.**

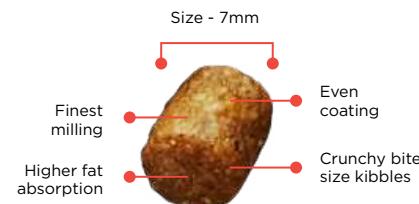

# ADULT MAINTENANCE

*Small bite*

## Advantages

1. Glucosamine is added for maintaining healthy joints and ensuring better mobility.
2. FOS & MOS at the correct levels allow for better digestion and gut health.
3. Beta-Glucan is added to promote immune development and optimize vaccinations. Specific trials done on Large Breed Puppies.
4. Special salts and esters used to fight tartar build up on teeth and assists in oral care.
5. Real liver is cooked up in a stew and sprayed onto food to give it that extra yummy taste dogs love!

Please see page 50 for a recommended feeding schedule for this diet.

## Guaranteed Analysis (g/kg)

Crude Protein	22% (min)
Moisture	10% (max)
Total Fat	11% (min)
Fibre	4.5% (max)
Ash	8% (max)
Calcium	1.5% (max)
Phosphorus	0.9% (min)
Omega 6:3 Ratio	6-10:1
Pyrophosphates	1000 mg/kg
Glucans	135 mg/kg (min)
Glucosamine	250 mg/kg (min)

## Ingredients

Ground corn, chicken meal, rice (6% min), corn gluten, chicken & ostrich fat (with mixed tocopherols), wheat bran, yeast (including beta-glucans), mannan-oligosaccharides, pyrophosphates, hydrolysed chicken liver, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, glucosamine, yucca schidigera extract - Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

Available in these sizes:

**1.5kg 4kg 8kg 20kg**

# ADULT MAINTENANCE

Formulated to meet and exceed the requirements of all adult dogs with a general lifestyle.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

**Feed up until 10 years on small breeds,  
7 years on large to giant breeds.**

# ADULT MAINTENANCE

1. **HEALTHY JOINTS AND MOBILITY**
2. **EXTRACTED FROM YEAST MANNAN-OLIGOSACCHARIDES**
3. **BETA 1,3/1,6-D GLUCAN PROVEN EFFECTIVE IN CANINES**
4. **HIGHLY NUTRITIOUS FEEDING EXCEPTIONALLY AFFORDABLE PRICE**
5. **SUITABLE FOR ALL BREEDS OF ALL BREEDS AND SIZES**

## Advantages

1. Glucosamine is added for maintaining healthy joints and ensuring better mobility.
2. FOS & MOS at the correct levels allow for better digestion and gut health.
3. Beta-Glucan is added to promote immune development and optimize vaccinations. Specific trials done on Large Breed Puppies.
4. Balanced proteins, carbohydrates and fats allow for a cost-effective premium diet.
5. Medium-size kibbles, suitable for all breeds and sizes.

Please see page 50 for a recommended feeding schedule for this diet.

# Small to Medium Breed Puppy

*and Mommy*

Formulated to meet and exceed requirements of growing small to medium breed puppies. Suitable for lactating bitches.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

High levels of rice improve stool forming and digestion.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

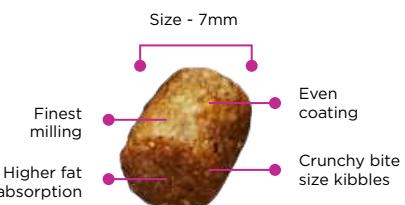

*Feed up until 18 months of age.*

## Small to Medium Breed Puppy and Mommy

### Advantages

1. L- Carnitine is used for sustained energy release and quicker recovery after exercise.
2. Taurine is an amino-acid added to help promote heart and brain development. Vital for Cardiomyopathy susceptible breeds.
3. The unique poultry oil and fat coating, along with salmon oil powder ensures higher DHA & EPA.
4. Beta-Glucan is added to promote immune development and optimize vaccinations.
5. Omega 3 fatty acids, along with DHA & EPA promote brain and cognitive development in growing puppies.
6. FOS & MOS at the correct levels allow for better digestion and gut health.
7. Encapsulated fatty acids and yucca schidigera extract aids in the absorption of gastro-intestinal odours, whilst reducing flatulence. Also helps with stool formation.

Please see page 50 for a recommended feeding schedule for this diet.

### Guaranteed Analysis (%/kg)

Crude Protein	28% (min)
Moisture	10% (max)
Total Fat	14% (min)
Crude Fibre	3.5% (max)
Crude Ash	7% (max)
Calcium	1.4% (max)
Phosphorus	0.8% (min)
Omega-6 fatty acids	1.85% (min)
Omega-3 fatty acids	0.5% (min)
EPA & DHA	0.25% (min)
Taurine	1.25% (min)
MOS & FOS	1% (min)
L-Carnitine	500 mg/kg
β-Glucan	250 mg/kg
Glucosamine	250 mg/kg
Metabolizable Energy	383 kcal/100g

### Ingredients

Ground corn, chicken meal, rice (15% min), chicken & ostrich fat (with mixed tocopherols), corn gluten, beet pulp, salmon oil, yeast (including beta-glucans), dried egg,mannan-oligosaccharides, hydrolysed chicken liver, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, taurine, , l-carnitine, glucosamine, yucca schidigera extract - Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

Available in these sizes:

**1.5kg 4kg 8kg 20kg**

# Large to Giant Breed Puppy and Mommy

Formulated to meet and exceed requirements of growing large to giant breed puppies. Suitable for lactating bitches.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

*Feed up until 24 months of age.*

## Large to Giant Breed Puppy

*and Mommy*

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.

### Advantages

1. L-Carnitine is used for sustained energy release and quicker recovery after exercise.
2. Taurine is an amino-acid added to help promote heart and brain development. Vital for Cardiomyopathy susceptible breeds.
3. Two world-renowned supplements, aiding in the development and protection of cartilage may also help maintain healthy mobility and lubrication in joints.
4. Beta-Glucan is added to promote immune development and optimize vaccinations. Specific trials done on Large Breed Puppies.
5. Maintaining a balanced Ca:P ratio in large to giant breed dogs will reduce joint conditions and ensure optimal growth.
6. Acts as a dietary fibre and prebiotic for natural flora within the gastro-intestinal tract, thereby aiding in better digestion.
7. Encapsulated fatty acids and yucca schidigera extract aids in the absorption of gastro-intestinal odours, whilst reducing flatulence. Also helps with stool formation.

Please see page 52 for a recommended feeding schedule for this diet.

### Guaranteed Analysis (%/kg)

Glucosamine	800 mg/kg
Chondroitin	350 mg/kg

### Ingredients

Ground corn, chicken meal, rice (15% min), chicken & ostrich fat (with mixed tocopherols), corn gluten, beet pulp, salmon oil, yeast (including beta-glucans), dried egg, mannan-oligosaccharides, hydrolysed chicken liver, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, taurine, glucosamine, l-carnitine, chondroitin, yucca schidigera extract - Nutritional Additives (%/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5

Available in these sizes:

**1.5kg    8kg    20kg    40kg**

# SENIOR DOG

Formulated to meet and exceed the requirements of all ageing dogs. Suitable for all breeds.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

**Feed small to medium breeds from 10 years onwards and feed large to giant breeds from 7 years onwards.**

## SENIOR DOG

### Advantages

1. The balanced levels of calories and fat maintain ideal bodyweight. Carbohydrates like rice and animal based proteins and fats, allows for better digestion.
2. A world-renowned supplement, aiding in the development and protection of cartilage may also help maintain healthy mobility and lubrication in joints.
3. L-Carnitine is used for sustained energy release and quicker muscle recovery after exercise.
4. Taurine is an amino-acid added to help maintain heart and cognitive functions. Vital for Cardiomyopathy susceptible breeds.
5. Green Lipped Mussel (GLM) extract has very potent anti-inflammatory benefits that assist in joint and stomatitis pain relief.
6. Chitosan a.k.a. chitin is a polysaccharide fibre used to bind phosphates and fat, which assists with kidney care and may help with weight control.
7. Special salts and esters used to fight tartar build up on teeth and assists in oral care.

Please see page 52 for a recommended feeding schedule for this diet.

### Guaranteed Analysis (%/kg)

Crude Protein	20% (min)
Moisture	10% (max)
Total Fat	8% (min)
Crude Fibre	4.5% (max)
Crude Ash	7.5% (max)
Calcium	1.5% (max)
Phosphorus	0.9% (min)
Omega-6 fatty acids	1.5% (min)
Omega-3 fatty acids	0.25% (min)
Taurine	1.25% (min)
MOS & FOS	1% (min)
Pyrophosphates	1000 mg/kg
L-Carnitine	500 mg/kg
β-Glucan	0.25% (min)
Glucosamine	500 mg/kg
Chitosan	100 mg/kg
Green Lipped Mussel Extract	100 mg/kg
Metabolizable Energy	345 kcal/100g

### Ingredients

Ground corn, chicken meal, rice (10% min), wheat bran, chicken & ostrich fat (with mixed tocopherols), corn gluten, beet pulp, salmon oil, yeast (including beta-glucans),mannan-oligosaccharides, hydrolysed chicken liver, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, taurine, l-carnitine, glucosamine, chitosan, green lipped mussel extract, yucca schidigera extract - Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

Available in these sizes:

**1.5kg    8kg    20kg**

# ADULT CAT

Formulated to meet and exceed the requirements of all adult cats, clinically formulated to prevent struvite crystal forming, whilst assisting in hairball management.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

Clinical control studies are done to ensure that struvite crystal forming is prevented and ensures balanced mineral levels.

## ADULT CAT

### Guaranteed Analysis (%/kg)

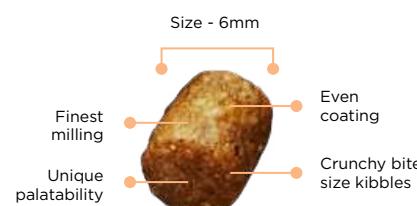

Crude Protein	30% (min)
Moisture	10% (max)
Total Fat	12% (min)
Crude Fibre	7.5% (max)
Crude Ash	7% (max)
Calcium	1.2% (max)
Phosphorus	0.8% (min)
Ca:P Ratio	1.4:1 (min)
Potassium	0.8% (min)
Magnesium	0.1% (min)
Omega-6 Fatty Acids	1.7% (min)
Omega-3 Fatty Acids	5% (min)
EPA & DHA	7.5% (min)
Taurine	1.25 mg/kg (min)

### Advantages

1. The fortification of Taurine helps the development of eyesight and prevents cats from going blind as cats cannot produce this essential amino-acid by itself.
2. The balanced levels of minerals especially magnesium, phosphorus and calcium significantly decreases the risk of Struvite crystal forming within the bladder. Proven trials are done yearly to ensure effectiveness.
3. High Omega 3 a level automatically allows for higher DHA & EPA levels that assist in brain and cognitive function.
4. Higher levels of Omega 3 & 6 allow for optimal skin health and a lustre coat.
5. Taurine is an amino-acid that helps the development of the heart and heart function.
6. Cellulose fibres along with soluble fibre like MOS and FOS, help prevent hairball forming by assisting hair through the digestive tract.

### Ingredients

Low-ash chicken meat meal (30%min), ground corn\*, rice (20% min), chicken & ostrich fat, (with mixed tocopherols), corn gluten, beet pulp, salmon oil, dried egg, inulin, cellulose, yeast (including beta-glucans), mannan-oligosaccharides, hydrolysed chicken liver, Vitamins & Minerals (including Vitamin E, A, D3, K3, B1, B2, B12, B6, Calcium pantothenate, Biotin, Choline Chloride, Niacin, Folic acid, Zinc sulphate, Copper sulphate, Ferrous sulphate, Manganese Sulphate, Selenium); taurine, yucca schidigera extract

Please see page 52 for a recommended feeding schedule for this diet.

Available in these sizes:

**1.5kg    5kg    10kg    20kg**

# OUR Specific RANGE

# Endurance

Formulated to meet and exceed the requirements of all working dogs especially in Endurance conditions and as a specialised diet for aid in digestive, skin and food related allergies.

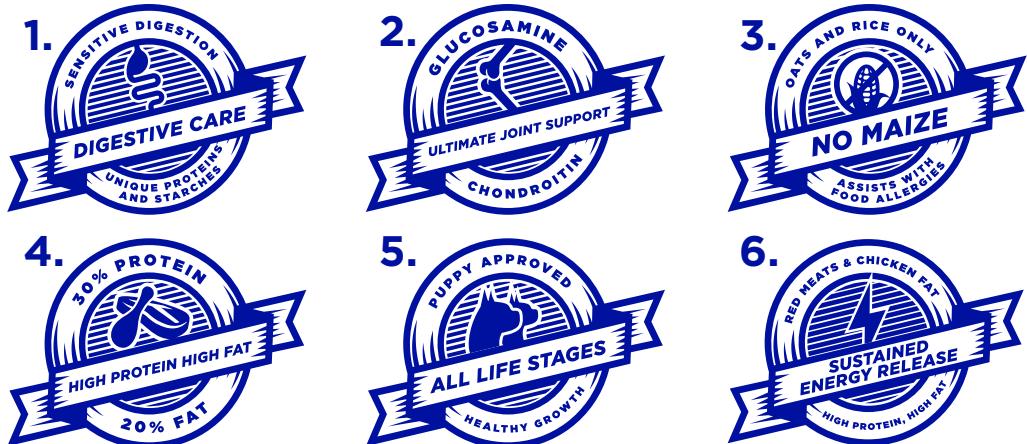

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice and oats optimises stool forming and digestion

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

Suitable for all life stages

## Advantages

### 1.

Novel proteins like turkey and novel starches like oats, assist in sensitive digestive tracts.

### 3.

No corn, corn gluten or wheat is used in this product. Assists with allergies and digestive issues.

### 5.

This diet is suitable for growing puppies and all active dogs. Placid dogs may get overweight on this diet. Not recommended for Senior dogs.

### 2.

The addition of Glucosamine and Chondroitin helps with ultimate joint support in working and sports dogs.

### 4.

The 30% Protein and 20% fat is derived from 95% animal origin making this diet very bio-available and supplies sustained release energy throughout the day.

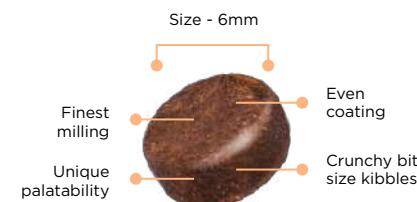

### 6.

High levels of Turkey protein and chicken fat, combined with rice and oats allows for extended energy release for all day activity.

## Guaranteed Analysis (%/ kg)

L-Carnitine	600 mg/kg (min)
Glucosamine	600 mg/kg (min)
Chondroitin	350 mg/kg (min)
Metabolizable Energy	395 kcal/100g

## Ingredients

Please see page 54 for a recommended feeding schedule for this diet.

Rice, dehydrated chicken protein, dehydrated turkey protein (15% min), chicken and ostrich fats (with mixed tocopherols), ground oats (5% min), flaxseed, beet pulp, dried green peas, salmon oil, mannan-oligosaccharides, hydrolysed ostrich liver, potassium chloride, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, taurine, glucosamine, l-carnitine, chondroitin, yucca schidigera extract - Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

# Mother's Miracle

Formulated to meet and exceed the requirements of pregnant and lactating bitches. This diet is also specifically designed to feed new born puppies by being rehydratable and supplying enough energy for growing puppies and lactating mothers. Specifically formulated for Large to Giant Breeds.

High quality imported proteins ensure the best bioavailability and absorption of nutrients possible.

The unique formula allows for a balanced diet of proteins, carbohydrates and fats.

High levels of rice improve stool forming and digestion.

The unique poultry oil and fat coating is higher in levels of DHA & EPA, crucial for maintaining a healthy and glossy coat. Higher Omega 3 levels may reduce food-related skin allergies.

Pregnant mommies: from 6 weeks of gestation.  
Puppies: from 2.5 to 8 weeks.

## Advantages

### 1.

The absence of corn allows the kibble to completely disintegrate and become like porridge when mixed with warm water. This allows small puppies to chew on softer food

### 3.

High levels of carbohydrates and fat allow for healthy milk production. Increased calcium and other balanced minerals allow for healthy growth in new born puppies.

### 2.

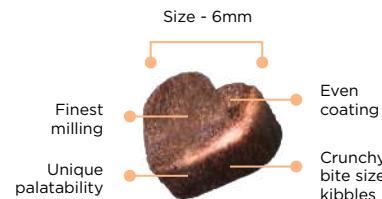

Extremely high levels of protein, fat and fibre allow for the necessary energy levels to produce healthy milk and allows for healthy growth in new born puppies.

### 4.

This formula caters specifically for Large to Giant breed puppies and have the correct Calcium and Phosphorus ratios that is crucial for their growth tempo.

## Ingredients

Rice (38% min), dehydrated chicken protein (28% min), chicken and ostrich fats (with mixed tocopherols), wheat gluten, flaxseed (5% min), beet pulp, dried green (4% min), inulin, salmon oil, mannan-oligosaccharides, hydrolysed ostrich liver, potassium chloride, salt, choline chloride, vitamin A supplement, vitamin D supplement, vitamin E supplement, vitamin C supplement, zinc sulphate, ferrous sulphate, manganese sulphate, niacin, calcium pantothenate, thiamine mononitrate, copper sulphate, riboflavin supplement, vitamin B12 supplement, pyridoxine hydrochloride, folic acid, calcium iodate, sodium selenite, taurine, yucca schidigera extract - Nutritional Additives (/kg): Vitamin A 12 000 IU, Vitamin D 1 000 IU, Vitamin E 75 IU, Vitamin C 50 mg, Folic Acid 0.25 mg, Zinc sulphate 120 mg, Ferrous sulphate 45 mg, Manganese sulphate 6.5 mg, Copper sulphate 6 mg

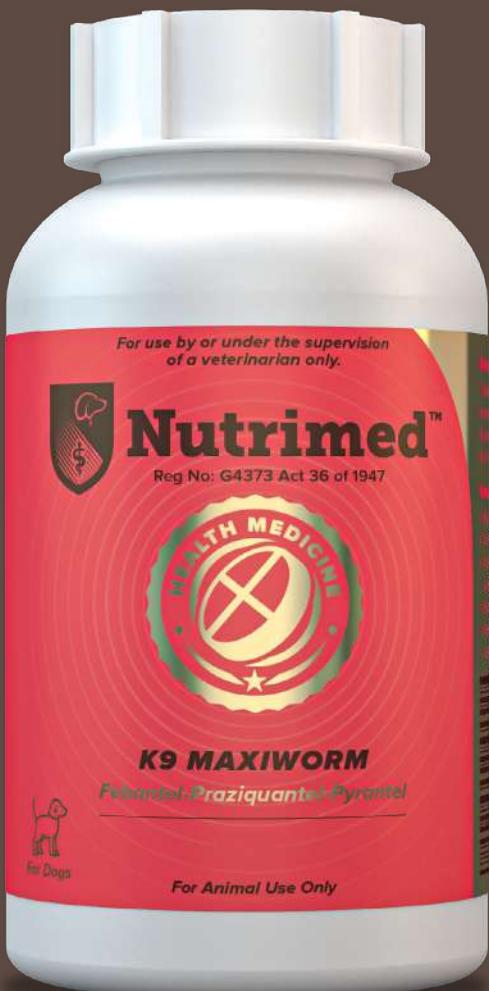

# OUR ANIMAL Health Care RANGE

# **K9 MAXIWORM**

**Febantel-Praziquantel-Pyrantel**

K9 MaxiWorm is a broad spectrum oral anthelmintic tablet treatment for most canine worms.

Give 1 tablet per 20kg bodyweight. Not for use in puppies younger than 6 weeks.

## Advantages

### 1.

Exceptional efficacy proven during extensive GLP registration trials done by ClinVet International.\*

### 2.

Convenient cross scored tablet.

### 3.

Easy breakable to dose smaller size dogs.

### 4.

Small tablet size ensures patient compliance

### 5.

Extremely cost effective

### 6.

Clinical trials on Hookworm, tapeworm, ascarids and round worm.\*

## Composition

Each tablet contains:

- 300mg Pyrantel Pamoate
- 300mg Febantel
- 100mg Praziquantel

## Available in these sizes:

- 2 Tablet pouch
- 50, 100 and 200 tablet containers

Please see page 56 for a recommended dosage schedule.

\*Full ClinVet scientific report available on request.

## *Notes*

# K9 MAXIWORM TABLETS

**Dosage Form:**  
Tablets

**Composition:**

Each 300mg cross scored tablet contains

- 300mg Pyrantel Pamoate
- 100mg Praziquantel
- 300mg Febante

**Efficacy:**

Highly effective against:

- Hookworms
- Tapeworms
- Ascarids

*Toxocara canis*  
*Ancylostoma caninum*  
*Dipylidium caninum*  
*Taenia hydatigena*  
*Echinococcus granulosus*  
*Echinococcus multilocularis*

**Warnings:**

For use by or under the supervision of a veterinarian only. Keep out of reach of children, uninformed persons and pets. Do not administer by routes other than those recommended. Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, notify the registration holder.

**Direction for Use: Use Only as Directed:**  
K9 MaxiWorm can be administered directly, mixed with meat or crushed and mixed with the feed. Feeding or fasting before treatment is not necessary.

**Dosage:**

Dose according to body mass.

Body Weight Range (kg)	Number of Tablets
0.5 to 5	1/4
6 to 10	1/2
10 to 15	3/4
16 to 20	1
21 to 30	1.5
31 to 40	2
41 to 50	2.5
51 to 60	3
60 to 80	4

Puppies should be dewormed every 2 weeks from the age of 2 to 12 weeks and regularly every 3 months thereafter to control worm infestations. Adult dogs should be dewormed at least every 6 months. Consult a veterinarian before treating sick or convalescing dogs. K9 MaxiWorm may be given safely to all dogs including pregnant bitches. Pregnant bitches should always be dewormed 10 days before whelping.

**Presentation:**

Light yellow, cross-scored tablets

**Storage Instructions:**

Store in a cool, dark, dry place, at a temperature 25°C Keep the container tightly closed after dispensing tablets.
